Oral Communication Assessment
January 2009 Update

Action Taken:

Committee members asked about why there were no unsatisfactory ratings for the MBA students in the oral communications assessments. Vince Howe said they are all excellent students. He does want to track changes over time with these results, but no action planned in response to the results at this time.

All actions will be conducted by the MBA committee. This data will be used as a part of the comprehensive internal and external review being completed in fall 2010. It is anticipated that actions taken will be posted upon completion of this review.
